

Great Leadership  
Begins with Trust

## BUILDING TRUST

Trust can be hard to earn and easy to lose.

Successful and healthy workplaces are built on a foundation of trust. When work relationships are rooted in trust, companies see effective communication, greater innovation, and increased revenue overall.

But when trust is broken, the work environment becomes toxic. People become stressed and work in silos, there's low collaboration, and morale and productivity drop. If employees don't trust who they work with or their leader, they won't perform to their potential. This can result in costly turnover for your company.

Everyone deserves to work in a safe environment where they can flourish. So what do you do when trust becomes fractured? How do you identify the problem and provide a solution?

At Blanchard®, we know it can be challenging to discern and address trust issues within your organisation. That's why our award-winning trust experts created a four-step model that is easy to learn, easy to remember, and easy to use on the job. Our Building Trust program teaches leaders and their team members how to build trust to increase engagement, creativity, and commitment to the organisation.

## PROVEN FORMULA TO BUILD TRUST IN YOUR ORGANISATION

Implement Building Trust training in your organisation as a live in-person workshop, live virtual workshop, or online course. All designs include engaging participant materials, videos, and learning activities that teach participants the following key concepts:

- Learn the Building Trust framework
- Develop an action plan to engage in more trust-building behaviours
- Learn a three-step process for rebuilding trust
- Plan and practice two trust-building conversations

After the workshop, participants will understand the impact of their behaviour on building or eroding trust with others. Your organisation will gain a common language to talk about trust and people will be more comfortable asking for help, leading to quicker problem solving.

With Building Trust, an increased sense of partnership is gained and a positive workplace is restored so your people and your organisation can thrive. Don't allow trust issues to poison your company culture or hinder your people's growth. Help create a trusting work environment where your people feel safe, empowered, and motivated.
