

Self Leadership

Empower Everyone to Take Control of Their Own Success

If your people don't reach their full potential, neither will your organisation.

Imagine how resilient your organisation could be if it were filled with people who have the skills and self-confidence to get what they need without unnecessary guidance or wasted time.

Organisations don't execute well when individual contributors aren't taking the initiative or being as effective as possible. Performance is often stalled because employees don't know how to ask for what they need when needed. The truth is that people want to be engaged, make meaningful contributions, and feel appreciated.

We know how important it is to the success of your organisation that every person be empowered and committed to achieving results. Our Self Leadership training program was designed by experts in employee motivation and engagement to ensure your team members develop the self-starting mindset they need to move the organisation forward.

When you arm individuals at all levels with the Self Leadership mindset and skillset, you build an empowered workforce that is productive, innovative, and passionate about their work.

Outcomes

Accelerate
Development

Drive Personal
Accountability

Improve Autonomy
and Performance

Increase
Innovation

A Proven Formula to Build Self Leaders

Blanchard's Self Leadership program builds on SLII®, the world's most widely taught leadership model, and integrates the latest research on the proactive skills required for individuals to be most effective. Team members learn a shared language for discussing their development and performance, allowing them to have more effective conversations and build more trusting, open relationships with their managers.

Self Leadership teaches your individual contributors the mindset and skillset needed to become proactive self-starters who know how to ask for direction and support, solicit feedback, pursue their goals, and have positive influence with others.

Flexible Options to Meet Your Needs
