Blanchard Australia provides world-class management training, consulting, and coaching that empowers leaders at all levels to create cultures of connection, inspiring talent to deliver extraordinary results. Creating connections has become even more critical this year, and we've risen to the challenge with innovative ways to develop your leaders.

Rising to the Challenge

We are all experiencing a time of tremendous disruption. These are the most common challenges facing our clients.

Leading Remotely Is Difficult

Some 40% of leaders lack the confidence to manage their remote teams.¹ That's not surprising: most never received any training for what is being asked of them.

What would it look like if your leaders were even more connected and engaged with their employees?

Miscommunication Drains Productivity

Trust and authenticity fuel productive communications. But rising tensions and stress cause people to withdraw from true dialogue or try to dominate it. The consequences are costly: Some 77% of employees say poor communication hinders their company's ability to compete.²

What if conversations were more authentic across the entire organisation?

Managing Change Requires Agility

The past few years have been a time of great upheaval. Organisations are being called upon to reimagine the way they do business, care for their employees, grow, and more.

What are the possibilities if your teams were more connected and nimble when navigating change?

Anxiety Fuels Fatigue

We're all feeling the pressure today, so your employees need their leaders to be more effective than ever before.

Are your leaders able to adapt to their people, provide clear direction and support, and provide comfort and calmness in this tumultuous time?

When your leaders create a culture of trust, transparency, and teamwork, your company transcends challenges and then flourishes.

¹ Harvard Business Review, Remote Managers Are Having Trust Issues, 2020.

² Dynamic Signal, The Cost of Poor Employee Communication, 2018.

The Blanchard Advantage

Enabling leaders to build deeper relationships—with their people, work, and company—making every day inspiring, motivating, and meaningful for all.

Proven Content That Has Never Been More Relevant

All of our solutions are based on rigorous academic research and have been tested in thousands of workshops and refined to meet the needs of today's leaders. You can be confident they will transform your learners.

Simple and Powerful Models That Work—and We Can Prove It

Easy to learn, remember, apply, and share. Our models are easy to learn, remember, and put into practice. That's no surprise. Industry-leading researchers created them.

Learning That Drives Application

Our solutions help clients pivot and turn learning events into profound experiences that unfold over time. They're practical, multimodal, and personalised, and they engage learners. And we deliver them in any format you want.

Experiences That Create Outcomes You Need

Let's create a passionate, productive workforce—even if there's not a model to follow. No matter your needs, our Solutions Architects can help you build a framework that achieves all of your goals.

Coaching That Sustains Impact

Our expert leadership coaches provide the accountability and support that reinforce learning and ensure the application of new skills on the job, creating measurable impact and sustainable change.

Current Learning Modes that Constantly Evolve

We deliver solutions that are constantly being refreshed and updated to reflect the very latest in adult learning methods and technology. Our size and specialisation allow us to invest heavily in engaging experiences not available to smaller or local providers.

Transformative Leadership Solutions

Blanchard's comprehensive suite of leadership solutions empowers leaders at all levels to create cultures of connection, inspiring talent to deliver extraordinary results.

Our Approach

Blanchard learning journeys, workshops, online courses, coaching, and other services are built on a flexible architecture. And we're serving up learning sustainment reinforcement with delivery modalities that leverage state-of-the-art technologies, including virtual reality simulations.

Practical

Our content is time tested and produces proven results.

Nimble

Our interactive digital offerings let you deliver content the way your people want it and when they need it.

Reinforced

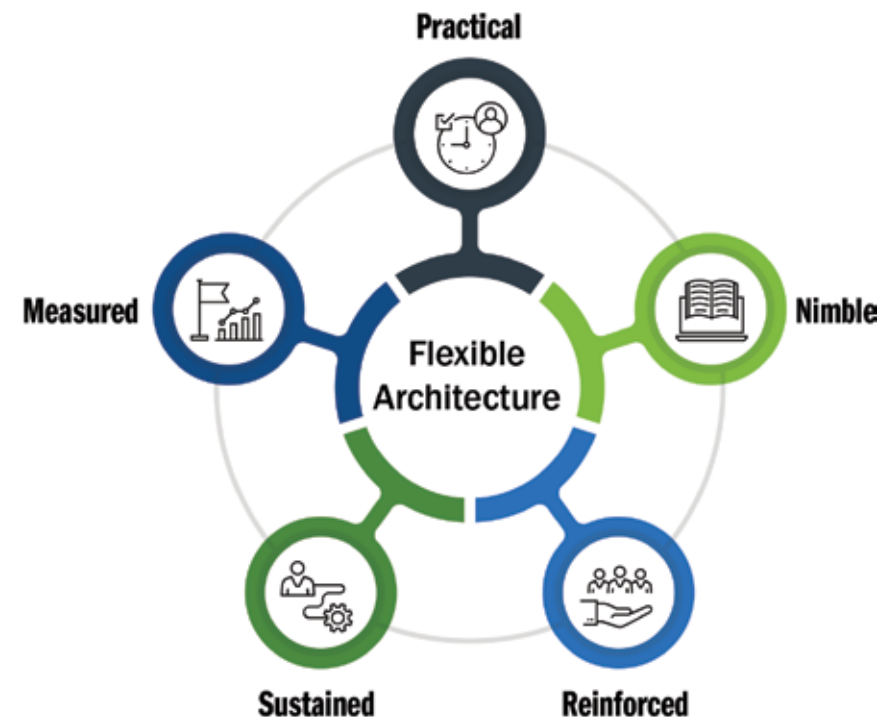

Our facilitation and coaching services ensure that the learning sticks and is applied.

Sustained

Our journey-based approach paired with a variety of innovative post-program strategies create habits that make the difference.

Measured

From the start, we create outcome-based learning experiences against a measurement backdrop.

Leading Self

Developing self leaders who take responsibility for their success and getting results in today's virtual environment.

Self Leadership

Empower your employees to make greater contributions to your organisation. The program teaches learners how to challenge their assumed constraints, figure out what they need to succeed, and proactively ask for it. It finishes with them mapping their sources of power at work. These skillsets and mindsets are the foundation for a culture of innovation.

Self Leadership Collaborative Online

This is a six-week online learning experience, in which learners map their journeys on a state-of-the-art platform that inspires interaction. They start the course by challenging assumed constraints and finish it by charting a new course at work.

Adapting to Change

The unrelenting pace and complexity of change today requires agility and replacing change-resistant reactions with a new mindset. Adapting to Change helps people understand why they often resist change and how to mindfully marshal their courage, curiosity, and resilience to adapt to changes they face.

Building Trust

Trust in the workplace is a prerequisite for success, so when it's missing, there's little collaboration and lots of suspicion. Building Trust teaches how to cultivate trust and repair it when it's been compromised. Using the Elements of Trust Model, learners discover how to inspire engagement and commitment.

Communication Essentials

The art of listening and dialoguing are the building blocks for inclusive leadership and conversations. Communication Essentials Online teaches your employees the keys to really listening to others, asking thoughtful and open questions, staying positive, and sharing their truth in a helpful manner.

Conversational Capacity®

Organisations move at the speed at which people communicate effectively and solve problems collaboratively. That can get tricky when the pressure is on or when people have different opinions. We teach people how to balance candour and curiosity to get the greatest benefit out of the most challenging conversations.

Legendary Service®

Keep your clients coming back by building a culture that delivers stellar customer service. Legendary Service teaches your people how to create a personal service vision, take initiative, resolve problems, and ask for what they need to serve their customers better.

Teaming and Collaboration

With employees spending the majority of their time working in teams, understanding how to make them successful is essential for the future of your business. This teaches learners how to diagnose their team's stage of development and act in a way that contributes to its performance.

Get Control® University

In a hybrid work environment, the ability for co-workers to share knowledge and tips on using their technology effectively and efficiently can be hampered by that very technology. The Get Control® University suite of self-paced, punchy and focused training modules gives people rapid access to key applications technical skills including Outlook, much of MS Office, Digital Time Management and a range of other topics, allowing them to get the training they need, when they need it, in a way that is fun and easy to digest.

Leader of Self (Digital Learning Journey)

A combination of self-paced activities and moderated events, Leader of Self teaches leaders the concepts of Self Leadership, Communication Essentials, and Building Trust. The result is accelerated employee development, improved performance, and greater autonomy.

Leading Others

Provide the right leadership skills to inspire leaders who instil trust, transparency, and teamwork in your organisation.

SLII®

The world's most-taught leadership framework, SLII® teaches managers how to unleash the potential of their direct reports by leading situationally: giving the right support and right direction at the right time. This enables employees to develop faster, succeed more, and reach their full potential. It also gives managers a common leadership language.

Blanchard Management Essentials®

Help your new managers have the skills they need to step confidently into their new roles with Blanchard Management Essentials. Based on one of Ken Blanchard's best-selling business books, The New One Minute Manager®, the course covers the foundational skills that generate positive communications, improve morale, and increase productivity.

Coaching Essentials®

The ability to coach is one of the things that separates great leaders from the rest. Coaching Essentials teaches managers the four key skills needed for effective coaching and provides opportunities for practice. When managers can coach effectively, their direct reports are more productive, loyal, and engaged.

Leading People Through Change®

Change initiatives are notoriously challenging. Leading People Through Change takes a unique and proven approach: It teaches a high-involvement, collaborative solution that invites all parties into the change process. This inclusive method draws on research and our 30+ years of practical experience in the field.

Leading Virtually™

Leading Virtually is a highly engaging solution that focuses on three key practices proven to boost manager effectiveness in a virtual environment: Be Present and Mindful, Foster Community, and Accelerate Performance and Development.

Mastering Motivation®

Much of the motivational training in the market is based on research that is decades old and out of date. Mastering Motivation® uses the most current research in motivational theory to develop the skill of creating leadership conversations - increasing the probability that people will shift to more positive motivational outlooks, and achieve sustained higher performance and morale.

Team Leadership

Teams frequently fail to accomplish goals because of a lack of shared purpose, unclear goals and roles, and ineffective leadership. Team Leadership teaches team leaders how all teams develop and how to provide clarity, manage conflict,

Point Solutions for Specific Challenges

Our library of solutions includes a range of options that “round out” your leadership development curriculum. These solutions include Strategic Business Planning, Practical Presentations, Effective Communications and Negotiation Skills, among many others – ask us how we can meet your development needs.

Leader of Others (Digital Learning Journey)

Looking for a pre-packaged, curated experience in a flexible format? Try our new online Leader of Others course. Through self-paced activities and live moderated events, leaders learn the concepts of SLII® and Building Trust, and explore other curated content. This accelerates employee development, improves performance, and fosters autonomy.

Delivery Options Built for You

Implementation and delivery methods for modern learning experiences.

Learning Journeys

Your workforce groups have different learning needs. That's why we work with you to identify gaps and create engaging learning journeys tailored to their needs—blending live, virtual, and digital content that's meaningful and inspiring.

Live Virtual and Onsite Training

Our global network of facilitators allows us to deliver informative, inspiring, and engaging virtual or face-to-face training programs to enable learners to practice new skills in a safe setting.

Digital Learning

Our online learning options include selfpaced courseware and journeys on role-specific topics. Live debriefs and connections with Blanchard experts and other collaborative online experiences reinforce key learnings.

Interactive Keynotes

Inspire your people with a live virtual keynote hosted by one of our acclaimed speakers and thought leaders. Reach everyone at your organisation and plant the seeds of change.

Training for Trainers

Our Training for Trainers sessions let you learn and practice Blanchard's solutions so you and your team of facilitators can deliver them at your organisation. They're available in interactive virtual formats and in-person sessions.

Virtual Reality

We bring Virtual Reality - cutting edge, immersive simulations - to leadership development, enhancing the training experience, accelerating learning, and providing a "safe space" for people to express their observations of behaviour and to build trust. Our Virtual Reality solutions are unrivalled in the current marketplace.

Open Enrolment Workshops

Public workshops are an ideal venue for your teams to participate in our leadership development solutions. They are also a convenient way to preview a program.

Enterprise Licensing

Gain full access to Blanchard's digital library collection with an annual license. This lets you incorporate content into your leadership development strategy for leaders at all levels.

A photograph of two women, one Black and one Asian, smiling and looking at a tablet computer. They are in a professional setting, possibly a meeting or training session. The woman in the foreground is pointing at the screen, and the woman behind her is looking on with interest.

Digital and Virtual Learning Experiences

Elevate the digital relationship between your organisation and your employees.

Today's learners expect instantaneous access to information and learning available on demand to address their needs. Blanchard offers a variety of elearning programs, digital learning journeys, and just-in-time tools that allow you to deliver our world-class leadership training in a flexible, scalable, self-paced format.

Modularised Learning

Microlearning and practical tools for immediate use

Self-Guided Flexibility

Works learning into busy schedules

Self-Assessments Built In

Ensures learners discover, reflect, and refine

Learn and Try It Out

Learn a little, then try it at work

Collaborative

Everyone learns from each other during live weekly debriefs

Curated Resources

Playlists provide essential knowledge in the moment of need

Online Programs and Microlearning

Our world-class leadership training programs are available in flexible, self-paced formats that allow participants to learn and practice new skills as they have the time.

These experiences are powered by Blanchard's award-winning technology, which ensures seamless and engaging experiences for large audiences, unlimited in size.

Designed in various lengths to support your learning goals:

Online Programs

1- to 3-hour eLearning courses that include multiple modules

Online Overviews

35-minute eLearning summaries

Online Clicks

1- to 5-minute microlearning videos, activities, and downloadable tools

Blended Digital Learning Journeys

Our learning journeys are pre-packaged, six-week targeted experiences that teach core leadership principles to leaders at various levels, with live sessions woven into the experience and opportunities for network building and peer learning.

Choose from one of our pre-packaged learning journeys or work with us to design your own.

Leader of Self

A blend of our Self Leadership, Communication Essentials, and Building Trust training programs

Leader of Others

A blend of our SLII® and Building Trust training programs

Collaborative Online Experiences

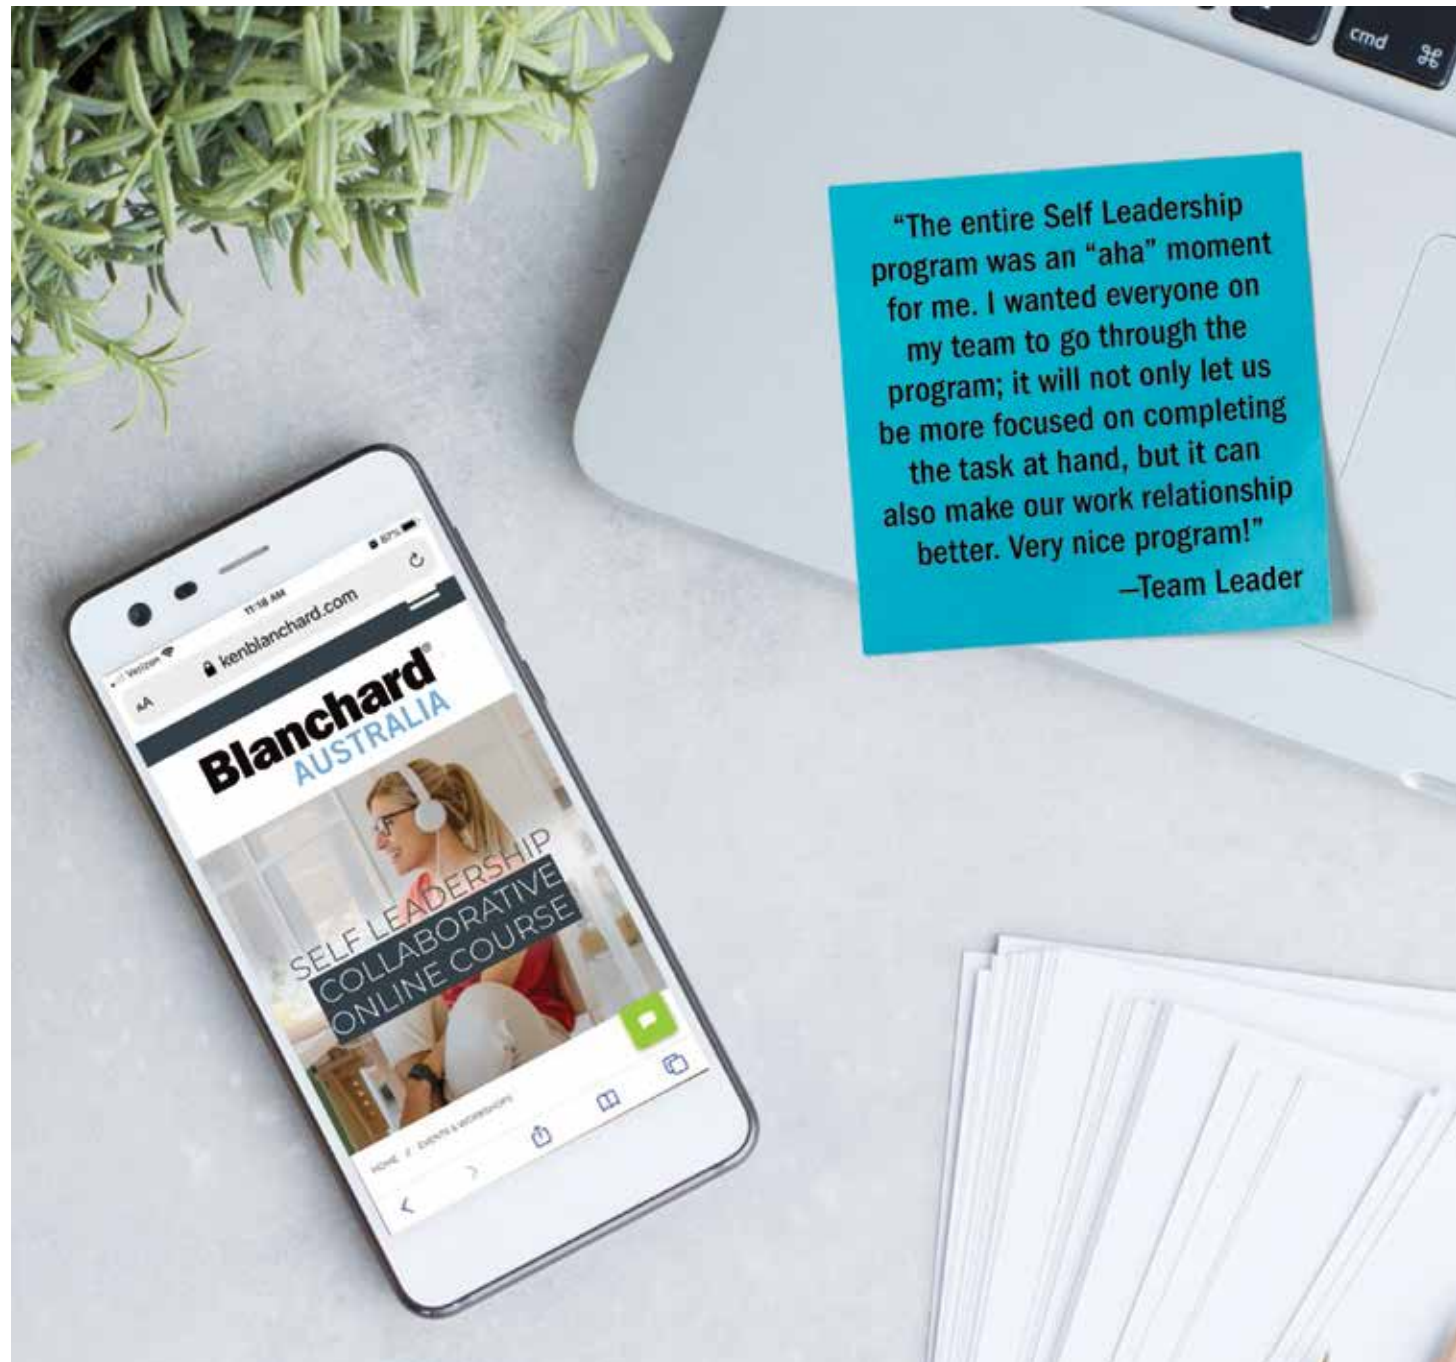

A brilliant blend of asynchronous learning and sessions led by Blanchard expert facilitators and moderators, Collaborative Online Experiences allow participants to learn from their colleagues and practice skills in a safe setting. A state-of-the-art platform promotes interactivity. Connection powers the experience and brings virtual learning to life.

Self Leadership Collaborative Online

An immersive, social, and applied experience of our Self Leadership program

Conversational Capacity Collaborative Online

Conversational Capacity Collaborative Online is a learning journey that teaches the key concepts behind balancing candour and curiosity to find the sweet spot in difficult conversations.

Reinforcement and Sustainment

Learning doesn't end when the class finishes. We designed our solutions with this in mind, creating a variety of post-session tools that help learners turn workshop content into new behaviours.

Debriefs

Our online programs include optional live debrief sessions that can be facilitated by a Blanchard expert or a manager in between modules to bring peers together to discuss learnings, share success stories, and practice and reinforce new skills.

Kenbot

Our chatbot helps learners apply and master leadership skills taught in SLII®. It extends and reinforces key content by:

- Providing quick access to common questions
- Linking to videos, worksheets, tools, and assessments
- Pushing reminders on key tasks

Powered by MobileCoach, Kenbot supports Microsoft Teams, Slack, Facebook, WebChat, and other popular platforms. It works with any mobile device that can send and receive text messages.

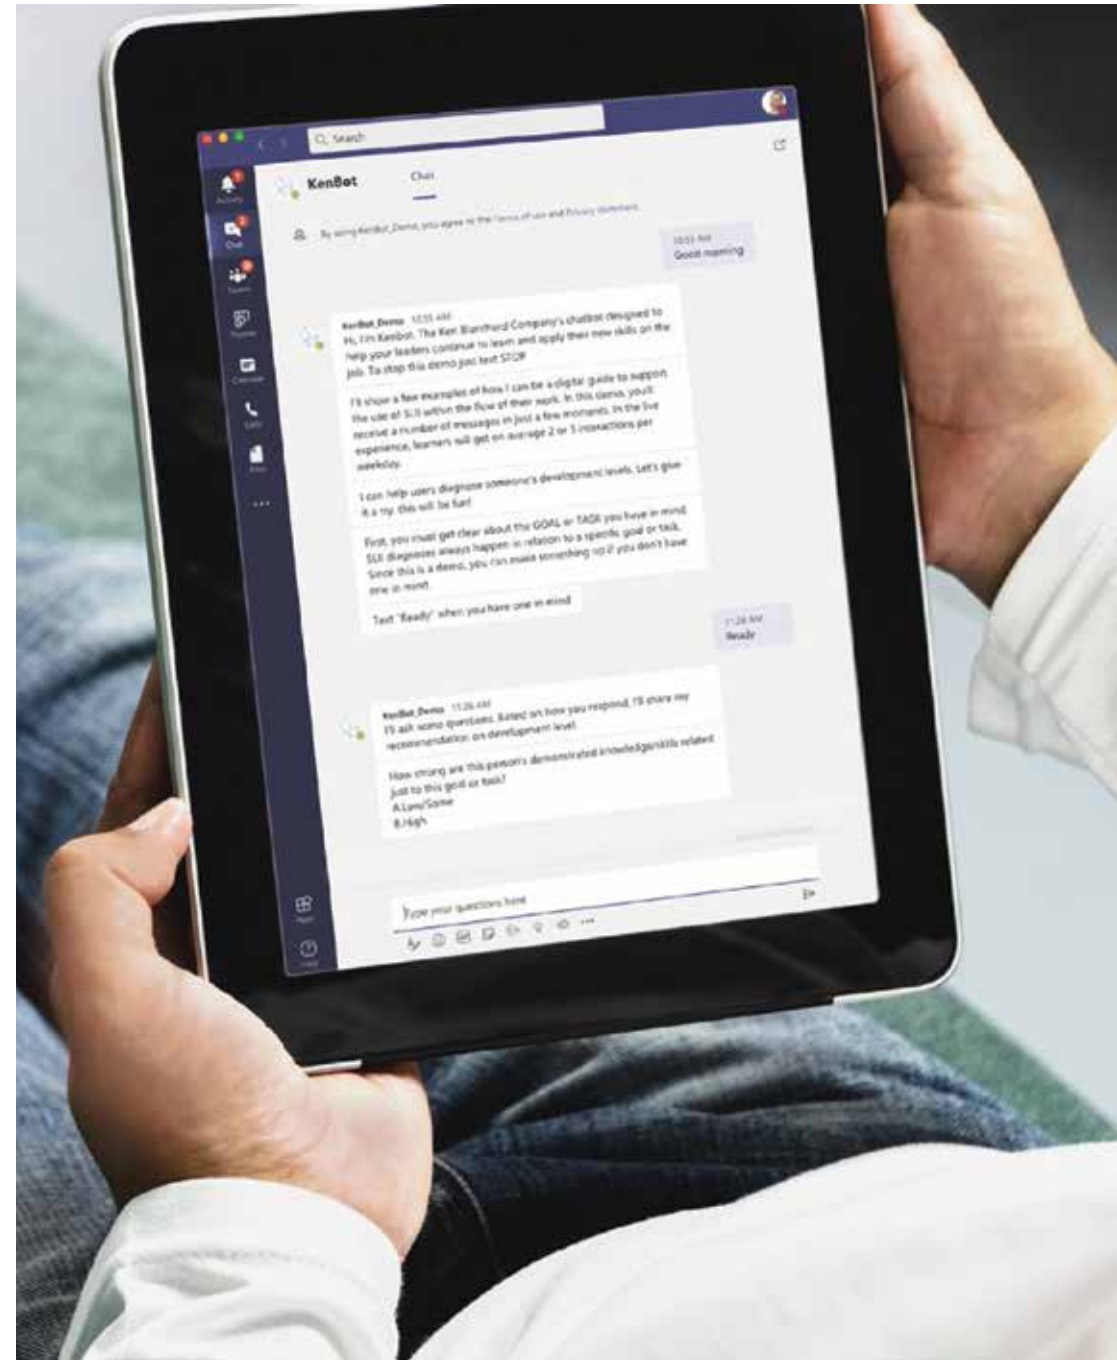

Program Support Apps

The SLII® App allows managers to quickly diagnose the leadership needs for a specific task and then access conversation guides so they can feel confident going into conversations with team members.

The Team Leadership App is a handy way to help participants diagnose teams, learn what their teams need, and identify the most helpful leader behaviours.

Assessments and Measures

Many of our programs are supported by psychometric assessments or relevant measurement tools to support the implementation of the techniques we teach. Examples include the Team Assessment, which allows team leaders to diagnose the specific leadership needs of a team at a point in time; the Change Scan, which supports the implementation of organisational change initiatives; and the Leader Behaviour Analysis II® (LBAII), which allows participants to understand their leadership style preferences and development opportunities.

Key Technology Partnerships

Blanchard solutions are seamlessly integrated with popular platforms. Here is a snapshot of some of our key partners.

Degreed

Blanchard's full catalogue of digital assets and online courses—including a free curated list of 280 podcasts, articles, blogs, research, and videos—is available to Degreed clients.

MindTickle

Blanchard leadership content and personalised, prescriptive, and guided learning journeys are available on demand on MindTickle. Content available includes SLII®, Self Leadership, Building Trust, Coaching Essentials, Team Leadership, and Communication Essentials.

Jenson8

Blanchard is accelerating the performance of teams by offering Apollo, the high-impact, multi-player VR simulation that enhances team members' creativity and productivity and fosters greater self-awareness and satisfaction.

Recognition through Digital Credentials

At your option, we will issue digital credentials using the Credly platform, which enable your people to share their development achievements, be encouraged to complete mastery and sustainability tasks to earn higher credentials and show their commitment to their development by sharing their credentials with others.

We have options for all our digital offerings, which can be hosted on the LMS platform of your choice.

Leadership Consulting and Services

We can customise our programs and create a solution to fit your needs.

Our Solutions Architects at our Centre of Excellence complement our award-winning curriculum, allowing us to partner with you to co-create the perfect experience for your scale, timeline, technology needs, and budget.

We can create solutions that address challenges unique to your company. Our experts offer an array of services that will help your organisation seize the future:

Talent Management Consulting

Learning Technology Strategies

Learner Experience Design

Executive Development

Culture Transformation

Leadership Development Strategy

Measurement and Evaluation

We can help you:

- Co-create a learning experience that meets your timeline, technology needs, and budget
- Develop à la carte options to fill the gaps in your leadership development curriculum
- Create a leadership development journey that unfolds over time and incorporates Blanchard content, your custom content, and content from other providers
- Deploy a new leadership development experience on a learning management system, a learning experience platform, or other innovative learning technologies
- Measure the level of impact of your training by using our four methods

Transformation Through Technology

Continually and rapidly developing technologies allow us to work and develop in ways that were unimaginable only a few years ago. Are you ready?

Transforming How You Work

A hybrid workplace, scheduling challenges for people and resources, reliance on services that were not built for the load. Our teams need effective leadership and support to help them excel in their new environment. Our sustainability resources, apps on multiple platforms and bite-sized chunks of learning allow them to get the information they need, just-in-time.

Our “Get Control University” suite of solutions allows people to grab technical skills that would previously have come from the IT Help Desk ... or their co-workers. They can learn how to more effectively use Word, Excel, Outlook and many more products – potentially gaining 15 days per year in increased productivity!

Transforming How You Lead

Leaders must be more tech-savvy than ever before, if they are to manage people across multiple environments, matrixed teams and platforms. Our “Technology Quotient (TQ)” Assessment tool allows leaders to determine their TQ and use this information to develop the skills to lead more effectively and powerfully than ever. We believe that, in today’s world, TQ is as important as EQ and IQ in leadership.

Transforming How You Learn

Learners today demand relevance, engagement, focus and practicality. Our solutions deliver just that. We constantly update our existing programs to take advantage of research in adult learning, and seek out the leading edge of learning technologies – such as virtual reality immersion experiences, collaborative and curated learning journeys, and rapidly accessible sustainability modules.

Our participants consistently report their experiences as “profound”, “impactful”, “valuable” and “fun” – they are our Raving Fans!

Get Control University

Critical Information Technology “How To” Training, in digestible units

Blanchard Microlearning

Leadership Essentials delivered when your team needs them

The Technology Quotient Assessment

How tech-savvy are you and your people?

Leading Edge Technology Platforms

Virtual Reality, Implementation Apps, Multiple platforms and modes = High Return on your Training Investment
